

LAB ASSIGNMENT

Question 1: Repeat Question 1 using characters instead of numbers.

```
INSERT    E
INSERT    A    AT THE BEGINNING
INSERT    H    AT THE BEGINNING
INSERT    Z    AT THE END
INSERT    F    AFTER A.
```

PRINT THE NEW CREATED LINKED LIST.

Question 2: Write a program that modifies the word “raining” to “trains”. Assuming the word is stored using a linked list, you can use only add and delete functions defined by you in the previous questions of this lab session.
